

Examples of combination of optional modules on Green and Black Belts

Green text = Green Belt. Black text = Black Belt

	<p>I ensure optimization in our <u>production</u>.</p> <p>I love data and would like to continue with my development of my <u>statistical capabilities</u></p>	<p>I like sparring with other people and I'm considering becoming a leader – or work in <u>management</u></p>	<p>I am already working in a <u>development/ R&D function</u>.</p> <p>I would like to work as much as possible with <u>development of new products</u></p>	<p>I am employed in a <u>QA/QC function</u>.</p> <p>I would like to be inspired to think <u>quality</u> in a slightly different way.</p>	<p>I come from an <u>administrative</u> organization where there is no production – but we have a lot of data that we could utilize for <u>process optimization and control</u>.</p>	<p>I would like to remain a generalist / leader.</p> <p>I would at some point like to implement an <u>improvement initiative</u>.</p>	<p>My current job function / background is not crucial.</p> <p>I am going to be an <u>allround Green/ Black Belt</u>, who facilitates improvement and problem solving.</p>
<p>Optimization and design Optional modules</p>	<p>Analyze and Design Processes</p>	<p>Business Process Management, BPM</p> <p>Business Process Management, BPM</p>	<p>Design for Six Sigma, DfSS</p> <p>Quality Function Deployment, QFD</p> <p>Risk Management in Development Projects</p>	<p>Business Process Management, BPM*</p> <p>Business Process Management, BPM</p> <p>Risk Management in Development Projects</p>	<p>Analyze and Design Processes</p> <p>Business Process Management, BPM</p> <p>Lean Yellow Belt</p>	<p>Business Process Management, BPM</p>	<p>Business Process Management, BPM</p> <p>Lean Yellow Belt</p>
<p>Organization and management Optional modules</p>	<p>Change Management focusing on the individual</p> <p>Data-Driven Management</p>	<p>Change Management focusing on the individual</p> <p>Data-Driven Management</p> <p>Facilitation</p>		<p>Facilitation</p>	<p>Data-Driven Management</p>	<p>Change and Anchoring in the Organization</p> <p>Data-Driven Management</p> <p>Facilitation</p> <p>Change Management focusing on the individual</p>	<p>Data-Driven Management</p>
<p>Statistics for optimization Optional modules</p>	<p>Statistical Process Control (SPC), MSA, Capability 2</p> <p>Statistical Process Control (SPC), MSA, Capability 3</p> <p>Data Driven Root Cause Analysis and DoE 2</p> <p>Data Driven Root Cause Analysis and DoE 3</p>	<p>Statistical Process Control (SPC), MSA, Capability 2</p> <p>Data Driven Root Cause Analysis and DoE 2</p>	<p>Data Driven Root Cause Analysis and DoE 2</p> <p>Robust design with tolerance analysis 1</p> <p>Data Driven Root Cause Analysis and DoE 2</p> <p>Statistical Process Control (SPC), MSA, Capability 2</p>	<p>Statistical Process Control (SPC), MSA, Capability 2*</p> <p>Statistical Process Control (SPC), MSA, Capability 2</p> <p>Statistical Process Control (SPC), MSA, Capability 3</p> <p>Data Driven Root Cause Analysis and DoE 2</p>	<p>Statistical Process Control (SPC), MSA, Capability 2</p> <p>Data Driven Root Cause Analysis and DoE 2</p>	<p>Statistical Process Control (SPC), MSA, Capability 2</p> <p>Data Driven Root Cause Analysis and DoE 2</p>	<p>Robust design with tolerance analysis 1</p> <p>Statistical Process Control (SPC), MSA, Capability 2</p> <p>Data Driven Root Cause Analysis and DoE 2</p>

* As a Green Belt you must choose one optional module. The choice depends on your needs. Contact us for advice.
